Guilty Baboons

BULAWAYO, Rhodesia (AP) — Two train derailments have been blamed on baboons that put rocks on the tracks, railroad officials said.

8/24/72 MAL VINCE

Web of Plague

TREBINJE, Yugoslavia (AP) — A plague of black widow spiders descended on the Popovo Valley, and 11 persons were hospitalized after being bitten.

TO MY SIX SCIENTISTS....

These clips, are further evidences of the psi-force technique I am using to cause insects, rodents, animals and fish (and people) to do strange things... like the millions of swarming mice in Australia; like the giant turtles attacking people in Florida, for the first time in history; like the "plague" of grasshoppers that just struck Texas...and so forth. (Also Nature itself has turned its creatures against humans, because of what the humans have done to Nature.)

— Now, I thought you would like to know...an offer has been made to me, to go to Russia. And not through usual State Department channels, either. The offer designated my being "smuggled" to Russia through an"underground"system.

— The Si's have informed me...that I have done well...in using their various psi-force or "PK" mechanisms...to produce many different kinds of miracles (rather a miracle in itself...working with hurricanes; lightning; space shots; people; animals; insects; rain and floods; drought...and so on and on.
Now they tell me...they are "upping my power". Moving me to a higher point on the psi-force spectrum. Soon I am to begin working in a medium which only top astronomers such as Dr. Hynek would understand...changing and affecting the paths of planets and stars...working in outer space...with the Sun, the Moon, and other planets.

You know, I used to be in show business, long years ago...and I used to stop the show by flicking open a foot-long Italian stilleto and throwing it fifteen feet through the straw hat on top of my wife's head. As a joke, the MC used to say: "Now what will he do for an encore?" Well, I had been wondering what I would "do for an encore" after controlling the last Apollo mission (called in advance to Dr. Hynek; then controlling a huge radar station (FAA) with my mind...confirmed in writing by a government expert who was there; and now slapping Cleveland silly with my psi-force techniques, first notifying the scientists in specific detail what I was going to do, then doing it....

so this is the "encore"...now...moving from earth to affect outer space with my mind, directed by the UFO intelligences with which I work. I'll try and keep you all informed. If you want to be sure to be informed...you'd better send me some money, to ante up in this private game. I need some help, as I've said many times...and only two people have helped, Evelyn and George. That's it. Out of 35 people. Either you put a value on what I am doing, and am keeping you informed of...or you do not.

— Now, 6 scientists...the two miracles I wanted to do for you several weeks ago, and which fell through because I couldn't get through to you on the phone...one was: I was going to give you the choice of which you wanted to win, Bobby Fisher, or Spassky. At that time Spassky was winning, and easily. I was going to ask Dr. Hynek, or Dr. Fogel...you want Fisher to win? But I couldn't get through on the phone. (When I am "hot" on a miracle, the mail is far too slow...which is why it isn't stupid for SOMEBODY to set up a "hot-line" for me)...so anyway I decided to give the Russians a look at real psi-force...and I "hit" Spassky with certain PK mechanisms...to confuse his mind. And it has worked beautifully. Of course, this has no value whatsoever...because I couldn't get through to Hynek and Fogel to tell them what I was doing...but I ATTACKED SPASSKY'S MIND! All right...now the reason I am bringing this up is...IF THE RUSS ARE SO FAR AHEAD OF US IN PSI-FORCE TECHNIQUES...WHY COULDN'T THEIR EXPERTS HAVE FUZZED UP FISHER'S MIND...AS I HAVE DONE TO SPASSKY'S MIND? (I refer you to the book, "Psychic Discoveries Behind The Iron Curtain".) Hell, if they can't knock out Fisher's mind, just one single chess player...as I have done Spassky's... I can assure you THAT THEY ARE NOT SO FAR ADVANCED AT ALL. And coming from me, you'd better believe it.
