March 22, 1973

TO MY SIX SCIENTISTS

Gentlemen:

This...is an important communication especially.

I have called back, erased completely...all "PK" mechanisms...assigned to harass certain geographical locations; a handful of people; etc.
This includes football teams, basketball teams, and the like.

In short...I have erased the blackboard clean...and any vestige of PK effect in the past, attached to anything or anyone at all...is now gone and erased.

If you have any questions on the above...let me know.

The Si's, of course...are currently producing a world drought. Then I will later be allowed to correct the drought condition, indicating in advance to you which areas will be allowed rain.
All this, of course...will take time...perhaps a year or so.

The only thing left now...of all my work...will be my production of a mild earthquake in northern California. No one will be killed or hurt; that selective intelligence is framed within my mental demonstration. Just a shaking up of the area; probably 3-4 on the Richter scale.

In closing...I do not intend to proceed any further with football teams or pro sports, or anything of the sort.
My "blackboard" had been cluttered with dozens of PK targets (psi-force projects)... but now my blackboard is clean...all psi force mechanisms withdrawn.

Sincerely,

Ted Owens (PK Man)
Box 48, Cape Charles, Va. 23310

Owens
