Using my own psi-force methods and working in collaboration with my UFOs, The Egyptian Power and The Mayan Power... I have discovered to my own satisfaction that I can indeed control ~~all or part of~~ the Earth (in specific ways) (weather, situations, ideas, populations.) There is no doubt whatsoever about it, in my experienced estimation; My work in coming to this conclusion, was not based on scientists or scientific procedure. It could not possibly be, since the Forces that I am working with do not have Power physics that fall within the area of Earth science. Only my half-human, half-alien brain could properly evaluate my procedure and results. And it has done so. The work is valid.

PS... Should any humans kill me ... even instantly... then a post-effect, which has been set up by myself and the UFO, quite like a post-hypnotic procedure, will be activated and the Earth and most of the human race will [illegible]

I hope that you are paying close attention to these files that I am sending you. Using my psi-force powers, my UFO contact, my Egyptian contact, my Mayan contact... I am working daily to knock out power around the world and create violent storms and rainstorms and lightening attacks (my symbol: ⚡) around the entire world!

Today the Sts (my UFOs) communicated to me the following intelligence:

"When the book you have written about me and my work appears in bookstores across the land, as it is written ... then they will withdraw their war against the U.S. government."* (As they did once before against Cape Kennedy when I became a member of Mensa. And they kept their word then.)

This is their word on it. So the sooner your book is published and in bookstores, the sooner the U.S. Govt. will begin to "get the breaks." Gwen
