

Sept. 18, 1970 (Later Saturday night)

Mr. ~~Greenleaf~~, -FBI Dr. A. Lynek
Mr. ~~DiMaggio~~, -SS Dr. Leo Sprinkle ✓
Otto Binder
Gray Barker

Gentlemen:

Some fascinating intelligence has just been passed on to me, and after reflecting as to who just might be the most interested in it...although you-all are not connected...you four came to mind.

Although this is unbelievable...so are the things I've done...and this just might come in handy to you to know, some day.

In the past hour...I had two phony phone calls. So obviously phony I had to laugh. But also I was puzzled. In the past four weeks...I've had dozens of "wrong number" phone calls, and obviously phony sales pitches. I know they were phony because I've been a salesman and know every inch of the ground. So...I communicated with Control, top Si, and asked what it was all about. This, following, is what Control told me:

It is a crude system used by the OI's, or other intelligences (the bad UFO creatures the Si's have warned of, see my book) to attempt to "program" people... where the Si's can appear and vanish...meanwhile modifying a human brain without using a scalpel...the OI's use the cruder method of "capsule subliminal" suggestion. How it works: the OI's call their target. An entire, long message has been prepared in capsule form, and covered over with sound...an ordinary, short call to a "wrong number"...but long enough so that the suggestion is given through "subliminal sound" to the target. You are of course familiar with subliminal suggestion as sent through a TV set. This is a modification of same, sent through sound, in capsule form.

This will explain why some people do strange things after they receive "wrong number" phone calls, or a sales pitch. Or perhaps drop dead from a heart attack. Won't work on me...for I have multiple-protection against the like. Won't tell what the protection is...but just one part of it is, of course, auto-hyp; another is anti-PK the Si's have built in. The less the OI's know, the better. They know that much about me anyway.

I was going to include the government agencies in this..but they surely wouldn't grasp it, or understand...so am sending this on to you four, who can understand.

Best.

Sports Desk, Phila. Daily News, Philadelphia.

Gentlemen:

One of the greatest miracles of modern times is taking place... and taking place without anyone knowing about it, relatively speaking. Certainly the population of the U.S. knows nothing about it. But ~~you~~ you gentlemen do.

I wrote to you...before the pro football season started...and told you that I would "control" five, 5, pro football teams this year to be losers. The Jets, Chiefs, Eagles, Dolphins and Cowboys. Primary target: none of them to be able to win the World Championship later on (which is all of the marbles.) Secondary target: for them to lose as many games as possible.

The miracle has developed right in front of your non-seeing eyes. The five teams have now played a total of 35, thirty-five games. (And I might mention that the Chiefs and Jets are two of THE toughest teams to beat in the U.S., both having been World's Champions these past two years.) The five teams have LOST a total of 22 out of 35, games by now. Won only 13.

Last week I beat four, 4 of the five, 5.
This week I beat four, 4 of the five, 5.

This ~~XXXXXXXXXX~~ Sunday I beat the Kansas City Chiefs. Yesterday, next day, I beat the Jets. I'll tell you, I have the utmost respect for Namath...he's darn hard to beat. But the PK will do it just about every time. Tell you how good it worked...in the 4th quarter of the Jets game I wanted the Browns to hold on to their lead, and they were going to kick...so I instructed the PK force on the field to take the kick "for an extra long distance" down the field. The kick got off ordinarily. The Jet receiver signaled for a fair catch, and quite mysteriously the ball dipped to one side just as it reached him (you've never seen anything quite like it) and then bounded as if possessed for about 20-30 yards towards the Jets goal line, where it was downed on the 4. And that sank Namath and Company. That's how good the PK worked in last night's game. The announcer kept saying "how could this be? The Jets have 500 yards gained and the Browns only 180...yet the Browns are ahead?" Ha ha. Or "Who ever heard of a team being penalized 164 yards, like the Jets are tonight?" (PK causes mistakes of all kinds, including penalties to get the PK'd team pushed back.)

It's a downright rotten shake the people of the U.S. can't know what is going on, with this PK attack on five pro teams, and see it develop! One man controlling pro team after pro team with his mind!

Dr. Sprinkle

President Nixon:

In 1968...I wrote ~~██████████~~ and warned ~~██████~~ of two things...and you can find this in the various government agencies' files of my writings:

(1) Russia had perfected a long-range missile that could be fired...and would attack the U.S. from the direction of South America. I pointed out...that our missile defenses were set up in Alaska and along our north and eastern coasts...so what would happen if these new Russian missiles came from the direction of the South American countries? (At that time I didn't know anything about "orbital bombs"...which has just now become solid intelligence; just relatively recently now.

(2) I warned...that the Russians had set up a dangerous (to the U.S.) missile-launching arrangement behind Cuba, using the body of Cuba as a shield from the U.S. (And not long after I wrote this warning, a U.S. warplane 'accidentally' got lost and went down back, behind Cuba. No doubt, to take a look. On the news tonight, two years later...hard intelligence that the US has just discovered that I was right two years ago.

NOW THE REASON FOR THIS LETTER:

Shame on you, and the U.S. Government!

California has had no rain since April. It is desperate. 100 homes have been burned down. The State is in an emergency situation, the worst in 33 years, according to TV. Fires are breaking out all over.

WHY HASN'T GOVERNOR REAGON, OR EVEN YOU OR THE GOVERNMENT, GOTTEN PK MAN OUT THERE...TO UNLEASH RAIN AND ABSOLUTELY ~~EEEEEN~~ DROWN OUT THE AREA?

You certainly know enough by now...of my work...to have the utmost confidence in me.

The only conceivable conclusion I can come to...is...the U.S. Government has the stupids.

I can give California all the rain it can stand.

All you have to do is ask me. (But doubtless you'd rather see California go up in smoke. Seriously.)

Otto Binder (and other key contacts)

Dear Otto:

Please get my letter TO ALL CONTACTS, dated June 13, 1970, from your files, and check the second page of the three-page letter.

A sentence reads: "I have a hunch ~~THAT~~ THE SI'S WILL STRIKE our east or west coast WITH A BIG EARTHQUAKE during the summer..."

In this morning's Sunday paper: "QUAKES CAUSE BLAST, DAMAGE IN, NEAR L.A." Los Angeles(UPI): Southern California was shaken by a series of earthquakes Saturday that caused damage ranging from an explosion at an aircraft parts plant to broken windows and power failures.....The first quake was recorded at 7:14 a.m. PDT, but was felt by few persons. The more severe shock was felt at 7:31 a.m. Aftershocks followed. Buildings in downtown Los Angeles swayed with the rolling, 30-second quake. Homeowners with swimming pools said water poured over the edges. Power failures were reported over a wide area. A Los Angeles radio station, KMPC....was off the air for eight minutes because of power failure. Other stations in the Riverside-San Bernardino area also were off the air for brief periods of time. (NOTE: THIS HAPPENED EARLY SATURDAY. LAST NIGHT, SATURDAY NIGHT, I WAS WATCHING THE ARKANSAS-STANFORD COLLEGE FOOTBALL GAME ON TV...AND ALL THE POWER BLEW OUT AT THE STADIUM! HAPPENED JUST LIKE I TRIED TO MAKE IT HAPPEN AT THE ALL STAR GAME. FOR TEN MINUTES ALL TV AND RADIO WAS OFF COMPLETELY PLUS LIGHTS AT THE STADIUM. IN ARKANSAS, IT HAPPENED. QUITE A WAY FROM CALIFORNIA. BUT QUITE A COINCIDENCE.) To continue: The National Earthquake Information Center in Rockville, Maryland, placed the magnitude at 5.4 (on the Richter Scale). Now get this: "It felt like the building was coming down," a deputy at the Newhall substation said. "It was the eeriest thing I've ever felt around here." (This is, I think, an odd, strange remark to make concerning an earthquake.)

That's one "prediction" come to pass. AND NOW YOU DON'T EVEN HAVE TO MOVE OFF OF THAT LETTER, OR EVEN THAT PAGE....FOR MY NEXT "PREDICTION" WHICH HAS COME TO PASS!

Just drop down a few lines, and: "This coming fall...the SI's are going to "PK" all football stadiums where pro football teams will play...which will cause freak accidents and injuries...and have the effect of causing pro football teams to be regular traveling hospital wards." (Note that I stress THE SI'S are going to do this, not me. This is their idea and their execution.

Virginian-Pilot, Tuesday, Sept. 8, 1970, "LIGHTNING KILLS 2 ON GRID TEAM" St. Petersburg, Fla. (AP) Lightning struck a high school football field Monday, killing two players in a huddle and injuring 20 other persons. "We had the offensive team in the huddle," Gibbs High School Coach Al Campbell said. "I heard a loud clapping noise and every body was knocked down -- players, coaches and everybody on the field -- was knocked down."Police Sgt. Hink said the single bolt crashed down at the point where the boys were ~~XXX~~ huddled. "Those that were hurt the worst were in the huddle," he said. Campbell said, "There was no warning. We usually leave the field when it begins to lightning."

Well, you say...a coincidence. Could happen anytime. Absolutely not a coincidence...and I can prove it was not a coincidence, but the SI's

going about their work as I predicted they would in my letter of June 13!

THE VERY NEXT DAY...IN THE VERY SAME NEWSPAPER...September 9, 1970, "TWO GRIDDEERS KILLED BY LIGHTNING." (Is this just another article about the Florida football field hit by lightning? Read on.) XNN Cleveland (AP) Two suburban Beachwood High School football players were killed Tuesday when struck by lightning as they were leaving the school practice field... A spokesman at Suburban Community Hospital said several other boys were knocked to the ground but were not injured seriously. Two young griddeers were killed when struck by lightning Monday (yesterday) in St. Petersburg, Fla., as their team huddled on the practice field." (That's written right there in the article.)

In other words...two almost impossible, incredible events in two days' time.. both events happening on football fields. (Why high school football fields? Because I think the Si's are giving a second, deadly serious warning...to the pro football players, and the thousands of people who will be in those football stadiums this year. This may be the reason the Si's knocked out all the power in the football stadium on the nationally-televised game last night between Arkansas and Stanford...to dramatize their seriousness re their intent. Evidently they couldn't get through their time window for the All Star Game...last night they could...)

All right. This is quite a "scoop"....to make a "double-hit" with predictions...on the same page of a three-page letter three months ago. Both covering approx. the same point in time...roughly a week.

Am also including two letters I have received (please put them with my things to be returned much later when you finish reading them.)

The one from Oregon...reports that the XNN writer...well, "I myself and several others saw a drove of them (UFO's) here less than 1 mo. ago, and one later on."

Thus, friend Otto, the Si's are definitely making appearances as they said they would. But we're hearing about it only by accident.

Second letter from New York, writer says: "I have encouraged my family, relatives, associates and friends to read this (Saga) article. I don't know why I am doing this but I feel that it is one of those articles that must be read." Here again...we have the phenomenon of the Si's telepathing people to buy Saga...then when they buy Saga...to spread the intelligence out to other people from the articles!

Now, Otto, I don't like those football lightning strikes any more than you do. But keep in mind that Moses predicted the Si's/Lord would wipe out all newborn babies in Egypt! Which then occurred. And as it turned out, from the viewpoint of ages later...it was in a "good cause" since the imprisoned people of Moses escaped from the bad and evil Pharaoh.

Best...(and I apologize for the emotional language I used in a recent letter. It's just that I like you and your wife so much...and want you to get the most out of life. I'm your friend.)

Ted Owens (PK Man)
