To The Scientists I Know:

Gentlemen, it is time...time to give you a demonstration...to strike fear into your hearts.
I am not...your ordinary, orthodox human; even "experimenter".
And I have waited too long, overlong...for some cooperation, from somebody. I've marked time...toying with pro football teams...waiting for some scientists, somewhere, to make an approach. Now it is too late. Too late.

My demonstration will be...in the skies and heavens overlooking our earth...and even in outer space beyond our earth. This has nothing to do with the Si's work. This will be my own...and by the time you receive this, it will have been put into effect. Sometime, perhaps, I will dismantle the apparatus. Perhaps.

What I am going to do...is thrust tremendous, smashing, destructive thrusts of power... up through the skies over the earth, even unto outer space. No airplane will be safe in the air; no rocket ship will be safe in outer space. Invisible waves of irresistable force...will permeate our skies. Until I call them off, sometime, some day.

My powers...and ability...have been taken too lightly. If not, then I would have been approached and cooperated with, before this time. I can't wait forever; therefore the infinite powers which I possess...must be brought out and thwacked across the heads of stupid humans...to show them that a fact is a fact. Then we will take it from there.

So...right now the waters of the world are burning their intelligence toward the destruction of humans. This was brought about...because my word of warning was not heeded...re further pollution.
Now...the very air of the earth overhead...will be a no-man's land...waiting, waiting for humans to get up into it. In planes or whatever.

If you have any human decency...you will issue a general warning to the public not to fly in planes. But...the love of money being what it is...you will not, and they will.

And airplanes will fall like snow in December. I think this is the Si half of my brown talking...but whatever...it is very real, as borne out by my past demonstrations.

It is incongruous...I stop or divert the flow of giant lava slides, and save villages... yet not a word, not one word...goes out about it. The Si's are not credited; their powers are not pointed out to the public. So...we go from positive to negative powers. Unfortunate. But...there it is.
