

August 31, 1973

Dr. Max Fogel....Dear Dr. Fogel:

I respectfully propose a proposition...for an experiment in the field of the mind...your own field...based on other-dimensional effects plus parapsychological effects from this dimension...proceeding along scientific lines, with respect to proving out the validity of the findings.

You yourself will not have to do anything. I will conduct the experiment, a giant-sized PK (psychokinetic) experiment; assemble the proper documentation; and present the finished experiment to you at the finish for your inspection.

This will entail months and months of very hard work on my part...and all that I ask is...if I am successful in the experiment...that you, or Dr. Sprinkle, or Dr. Hynek, or Dr. Targ, provide me with a signed, notarized statement describing the experiment and the degree of success. I.e., that statement will be my motivation to succeed in the experiment of the mind.

This is the experiment: here in Cape Charles there are 2 or 3 pro football games on television each weekend of the regular pro season. I will find out each week, before the weekend, what games are going to be on TV here... then write to you before the games go on...telling you which ~~games~~ <sup>teams</sup> I am going to control in the games coming up. I.e., I will write you on Tuesday or Wednesday that on the following Saturday, Sunday and Monday...I will try, with my mind, to make the Cowboys, Chiefs and Oilers lose their games on those days against their opponents. Then when the weekend comes up I will trial in those games, utilize my powerful PK ability to try and control the games, as sent to you in advance...then after the weekend is over I will clip the game results out of the newspaper for the continuing file, and proceed with the next week's letter to you telling you which teams I will try and force to lose, via psychokinesis. At the end of the season I will send you the finished file...plus a tally of my successes and losses...and if I am successful in controlling the teams 75%...that is, 75% success, at a minimum...which should be far above chance, if I were merely using precognition...then I get my statement.

I would hope that this meets with your approval. As you know from a Contact letter not long ago...I successfully controlled a radar installation with my mind (and FAA nearly had a fit when the fact got out)...it was documented, with a signed, notarized statement from the government expert present. Well, since the UFO's that I work for and with insist that my mental power (power, not knowledge) is steadily increasing as time goes by...I submit that this pro football demonstration would be an acceptable way to measure, or check out, this allegedly increasing mental power. There will be no effort to injure players...just to force certain teams to make mistakes and errors and thus lose their games.

I would also try to cause power blackouts in the stadiums of the games that I am attempting to control...we would keep track of this; or, I would... and I would attempt to make weird, unusual things happen at the games, also. I.e., the experiment would be much like my control of the Apollo 16 flight where I called Dr. Hynek and told him that I would "give the astronauts fits" then I proceeded to do so. I would be giving the key teams each weekend "fits" to try and make them lose their games.

Now, the Si's (UFO entities that I work with) had previously instructed me to cease this experimentation of using PK or psi force in sports... and to stand by for a new assignment. And I had done so up until two weeks ago...when suddenly they communicated with me and told me to fly to different points of the world, blocking hurricanes from hitting land, stopping volcanos which might be threatening humans, and so forth. I.e., to act as a sort of "fireman" around the world, employing my knowledge of other-dimensional effects to create miracles to help the human race (my first assignment was to fly to Africa and work to end the killer drought threatening that country...13 million people are supposed to die from it, at this point in time, according to the experts...)

All right...this action of the Si's placed me on a new, higher point of the xpsychic spectrum...calling for a greater psychic power output on my part to control huge major disasters, or disasters in the making. So evidently the Si's have measured my increased mental power and found it to be adequate to handle the new assignment.

Now, I had a way to do this...obviously the new assignment would be very expensive. A millionaire ~~KIM~~ drove here to Cape Charles from Florida, with his wife...and offered to set me up in Florida with a Foundation (non-profit) and subsidize my work completely. He is famous (name of Dick Ross; is one of a group of six young millionaires, all under 30 year of age, who have pooled their wealth and are working as a team...I had read about him in Newsweek or some such magazine last year). He also gave Otto Binder the go-ahead to write a book about my life, which will be published in about a year from now...paying Otto \$5,000 to do this.

Well, I asked the Si's, in my way of communicating with them...if it would be all right to do this pro football experiment for the benefit of four scientists. They said yes, they would allow it...BUT THAT IF I BECAME ACTIVE IN THE NEW ASSIGNMENT I MUST DROP THE PRO FOOTBALL EXPERIMENT AND FORGET IT...IN ORDER TO CARRY OUT THE MORE IMPORTANT ASSIGNMENT. I.e., if the Florida millionaire flies me to Africa to end the drought there...then the football thing will be off and finished.

You may wonder how I could end a drought covering a land expanse as large as that of Africa. Well, I have done this twice in the past...ended the United States 6-year East Coast drought; then ended a 2-year killer drought in India. Ordinarily I do not have to ~~X GO THERE~~...but now I do, because the Si's want to dramatize the entire thing for the human race; they are irked because I have accomplished many miracles...with only a handful of people aware of the fact (35 contacts).

I will stand by on this pro football experiment and not proceed...unless I get a letter from you, or Dr. Targ (of SRI, who wrote me not long ago that he wishes to follow my work, or Dr. Sprinkle, or Dr. Hynek...that this experiment is on, and that I will get a statement provided I am 75% successful in the project. If I get such a letter from one of this group, then I will proceed.

By the way, before closing: note the giant earthquakes (Mexico, Hawaii, etc.) and the lightning attacks over the country; the devastating heat; the floods, and so on. Then if you wish to check back in my Contact letters you will find that I notified my scientists quite a long while back that the Si's four huge UFO's positioned around our earth...were going to bring this to pass, and that it would necessarily be rough on the human race.

Ted Owens (PK Man)

cc: Dr. Russell Targ; Dr. Allan Hynek; Dr. Leo Sprinkle
