end of March, 1974.
Ted*

Today the SI's communicated with me...and told me that The Organization, who had put Nixon into office...had voted to kill Nixon...eliminate him before the 1976 elections. (Also Kissinger will be eliminated.)

This, I gather, is the group of billionaires, or multi-millionaires, world-wide, who are pulling the strings on their puppets...and who can hire anybody, anywhere...to get something done that they wish.

As I understood the SI communication...they had ordered Nixon to resign and step down, or like that...and he will not. Therefore, as far as they are concerned, he has to go...like John and Robert Kennedy. But this time it will not be a shooting...they want it to look accidental...like cancer, or some fatal illness. Like Jack Ruby.

Also...The SI's told me that The Organization does not want V.P. Ford to be President, because they have a special, hand-picked man they want to get into that world-shaking spot. Now, what they plan to do about Ford I do not know.

The SI's told me...that this decision had just been made this week! And the SI's are seldom, if ever, wrong.

TO MY SCIENTISTS.....

(1) I hope that you were sufficiently impressed...with my recent file to you, complete with photo of UFO, taken at Williamsburg, Virginia. As you know, I am CAUSING UFO's to appear in a certain area of Virginia and make their presence known. The first happening was the giant UFO that appeared over the head of a policeman in Chase City, and stayed there for 15 minutes. Staying there that long was, of course, unusual for a UFO...but it wanted to make sure that the message was clear...that I had communicated with it and requested the happening, and it was delivering. The second happening was the man who took some shots of the sky, evidently on "impulse", with his camera...and when the photos were developed he had a beautiful photo of a UFO. Of course I know that he was "compelled" to take out his camera and photo the sky, in that particular place, at that particular time...so that the UFO's I had communicated with could deliver yet another message. If you do not agree...then consider the odds against anyone pointing a camera up at the clouds and walking away with a perfectly beautiful photo of a UFO in flight!

NORFOLK newspapers and the important event. How was I to document it

March 2, 1974

.....TO THE SCIENTISTS.....

As you know, from past material that I have sent you...I set up a project with Dr. Max Fogel...whereby I would communicate with UFO's and ask them to appear in a certain area of Virginia (where I live) and make their presence known.

Just days after I set up the project with Dr. Fogel...which I will dub "Project Alien" at this time...a giant UFO appeared within a few days inside the target area, over a policeman, for 15 minutes. You were sent the documentation on that...complete with newsclip.

Then...on February 14 I turned on our TV and caught the last two minutes of a news telecast...a TV reporter interviewing a man in Williamsburg who had accidentally taken a photo of a UFO there (it was displayed on TV). I dialed to the other news channels for the 6 o'clock news to learn more of this...because it was most important...Williamsburg is inside the target area. But the program did not appear anywhere on any channel at 6. I waited until 11:30 news...but nothing. Next day I checked the Norfolk newspapers and the Richmond newspaper. Nothing at all on the important event. How was I to document it? Of course, such a happening would have the utmost importance to Project Alien results...because in my communications to the UFO's I had asked them to let themselves be seen by humans within the target area, and here, somehow, they'd managed to set up a photo for humans.

So I wrote Channel 13 TV in Norfolk, asking them to confirm they'd had the program on. They would not answer me.

I realized that The Organization had clamped a lid on the target area...if anything did show up in the way of UFO phenomena...they'd manage to hide it, a la Watergate coverup. (Guess as soon as they spotted the brief TV reporting, they went into action quickly and muffled it.)

So I called the Virginia Gazette newspaper in Williamsburg and got their address...then wrote to them for newspapers covering the entire week, hoping to get a newsclip for documentation. I told them why. (The papers came later...but nothing in them whatever about the event, which happened right there and was important enough to be shown here on TV!) They gave me a clue as to where the man could be found who took the photo of the UFO. Now, Jim Johnson, who works at Colonial Store here, manager of the meat department, had seen that same TV spot...and asked me about it...so in an effort to try and get some kind of documentation I asked Jim to give me an affidavit on it.

Also, I wrote to The Man Who Saw The UFO...at the address given me by the Williamsburg newspaper, on February 22.

Time has passed, and I've been cussing because I thought I'd been stopped on documenting this important happening.

Then this morning I not only got a letter from the man who XXX took the photo of the UFO...BUT HE ALSO SENT ~~THE~~ THE PHOTO!*

Am enclosing a copy of same, along with the complete file on this.

Please note: this is the second documented Project ~~XXXX~~ Alien happening inside the target area, in my co-op with Dr. Fogel. Other startling events will happen re the UFO's and their entities...because I am in touch with them daily with regard to Project Alien.

* Negative. Will have prints made from it.

Channel 13 TV (ABC)
Gentlemen:

Would you please be so kind...as to confirm...that you had on last Thursday's television news program, at 6 PM...the fact that a man in Williamsburg, Virginia (less than 100 miles from Cape Charles, Virginia)...saw a UFO in the sky, and took a photo of it with his camera? Unfortunately I only saw the last minute of the telecast...and a friend here, Mr. Johnson, gave me the details of it. He had seen it en toto. My work deals with following UFO reports...thus it would help me a great deal if you would kindly confirm that the above facts, as given to me by Mr. Johnson, are accurate.

Sincerely,

T. Owens

Dear Dr. Fogel:

It gives me pleasure...to send you this report. Last Thursday afternoon, at a minute to 6...I dialed in Ch. 13 news. A man was being interviewed on TV by a reporter from Norfolk. The man had a photo of a flying saucer in the sky. He had been making photos of the sky a few days before...and when developed, there was the UFO! I checked all the rest of the TV news programs that evening, but nothing further on it. I checked all of the newspapers for several days...not a word on it. Since I cannot document a fleeting glimpse of such on TV...am writing Ch. 13 for confirmation of the thing. The event occurred in Williamsburg, Virginia...well within our target area. Best....

Dear Sir:

They mumbled your name over television...and didn't quite make it out. But anyway...am doing some writing, pro writing, on UFO happenings...and yours is very good. Could you drop me a letter and tell me exactly what happened to you...how you got the photo? Dates and all, okay? Can promise you...some scientists will get a look at the information you send me.

TO WHOM IT MAY CONCERN:
Last Friday, I asked Ted Owens (known as the 96 man) if he had seen the
television broadcast the preceding day, February 14, 1974, from
the Washington Post. He said that he had seen it and that he had
dropped into Colonial Store for some items.
I took a photo of a flying saucer in the news program, and I
other details.

February 19, 1974

TO WHOM IT MAY CONCERN:

Last Friday, I asked Ted Owens (known as the PK Man) if he had seen the Channel 13 television*newscast the preceding day, February 14, 1974, from 5:30 PM to 6:00 PM. (He had dropped into Colonial Store for groceries, where I manage the meat department.) He said that he had caught the last two minutes of the show, where television reporters were interviewing a man in Williamsburg, Virginia, less than a hundred miles from Cape Charles...and that the man had taken a photo of a flying saucer in the sky, and displayed the photo on the television program. I had seen the program, and filled Owens in on some of the other details.

Owens came to me today, and asked me to confirm the fact that I had seen the program concerning the man in Williamsburg taking a photo of a UFO there recently...because he said there had been no newspaper write-up of the incident, and he needed some documentation on it. Therefore am confirming the fact that the television program occurred, just as stated above.

RICHMOND ROAD AND VIRGINIA AVENUE, WILLIAMSBURG, VA. 23185

Dear Sir:

I received your letter via. Daily Press.

It was Sunday Afternoon approx 2 P.M. I was taking pictures of Cloud formations from my Hotel window. I am a traveling musician and I am presently engaged here in Williamsburg. I had no idea of what I had taken until I developed the film Sunday night.

When I saw what I thought was a U.F.O. I immediately ~~at~~ went to a local Photographer who owns a photo store here in Williamsburg, from whom I buy my supplies. He examined the negative & confirmed my surprise, he brought it to N.A.S.A. Langley H.Q. & their feelings confirmed the picture. The facts surrounding the picture are equally astounding.

The picture was taken with TRI-X High speed film on A.S.A. 400 shutter speed of 1/1000 sec with an orange filter to enhance Cloud contrast. We found out the

Clouds were approx 1 mile high & Broken. The two theories are that it rose on a 45° angle & sort of Blurred the photo & estimated speed of 6,000 M.P.H. the other

Theory is it rose made a 90° turn & sped away with an estimated speed of 14,000 M.P.H. the startling fact that no Sonic Boom was heard

I sincerely hope this information may help,
enclosed you will find a reproduction of the
original negative

Yours

Ronnie Trent.
