

TED OWENS (The P-K Man)..(Telegram--Rec'd 8/9/74).. "I alone, of all the major psychics in the world, predicted President Richard M. Nixon would be forced out of office and would be unable to finish his term." (1971 was the year of this prediction.) Owens also predicted the droughts that have been evident in the Midwest this year, as well as violent floods in 1973, published in Glenn McWane's WHAT SEERS PREDICT FOR 1973, published in 1972. Right on, Ted!

The Squad's purpose is two-fold--first to use their hard-earned fellow-man and secondly to prove that these psychic talents are helpful in the process of living....One important fact about the members are "natural" psychics, but have been trained and talents in their work.....For more information at the above address, as Associated.

Mr. Ted Owens (PK MAN)

Sept. 13, 1974
Dear David:

Thanks for the mention in Infinity Press....re the Nixon prediction. I must apologize for not making myself totally clear on the matter. What I meant was... I was the only psychic as early as 1940 (the book didn't come out with the prediction until 1971) who read Nixon right, and called the shot. Along in 1972, 1973...as things developed, any third-rate psychic might have guessed what was coming ahead. As for Enaud's prediction...he's good, isn't he. Of course, I had to go by were the "predict" books by you and Warren Smith, and hadn't seen Enaud's prediction. Oh, well.... Ted

NIXON PREDICTIONS....Although Ted Owens may have been the first to predict the resignation of President Nixon, as far back as 1971, there have been others who also saw this event coming far ahead of Watergate. One was Dr. Joseph Pinkston who said, "President Nixon will either be impeached or resign in 1974. It will be shown that people have lost confidence in the government." (From Warren Smith's 1974 Predictions book.)..In November 1972 our local "prophet", Enaud said that Nixon would not complete his newly-elected term in office. Watergate was not uncovered at that time, and Enaud could not say why, but only that he knew Nixon would not remain in office the full four years.
