TO MY SIX SCIENTISTS...

This incredible "attack" ~~XXX~~ on earth...by sun-storms...an "unexpected series of solar phenomena that a scientist at Boulder, Colo., said was sort of like getting snow in Atlanta in July"...WAS CAUSED BY ME.

Here's how it happened; as I was driving back from Cleveland, Ohio, some months ago, I was furious over how things had turned out. My best friend, George Delaven, had dropped about three thousand dollars on the Ohio trip... because the Ohio people had been mainly hostile and unfriendly. George and I even had to walk off of one radio show...because of the radio host's nastiness. *All right...as I drove back, the Si's communicated with me...and told me to use the same four giant UFO's at the corner of the earth ~~XXXXX~~ that I use to cause earthquakes, and to make insects etc. go wild on earth...they told me to use the "Emmy-Emma" UFO group to deflect the sun's rays onto earth... aimed at Cleveland, Ohio! So I followed their instructions, along with the Triangle technique. What followed...was first Hurricane Agnes...which nearly drowned out the East Coast (it reached for Cleveland, but only got as far as Pittsburgh.) Then...a searing blast of heat that attacked the entire East Coast...INCLUDING CLEVELAND-AKRON. In Cleveland sidewalks buckled from the heat...people went crazy, did crazy things...fires started all over (I have all of this documented, and will send it to you as soon as I can afford the huge xeroxing job it will take.)

But the point I am making is...THEN FOLLOWED THIS ONE-OF-A-KIND "snow in July" attack from the sun onto the earth!

The Si technique...had me picture the four giant UFO's in my mind...each one deflecting, like a mirror, the sun's rays down onto the earth, converging on Cleveland, Ohio.

What then followed...was an unprecedented, unheard of, attack by the sun on the earth!

Cause and effect...the pattern that has persistently followed all through my demonstrations. My mental cause...then the effect following, shown, observed, physically, for actual proof!

I told several people BEFORE the sun attacked earth...what I was doing to attack earth with sun's rays...and will send you a xerox'd signed statement to that effect as soon as I can get one and can afford to get it xerox'd.

If any of you want a further demonstration of this attack from the sun...I will be glad to repeat it for you. (A little rough on the earth, but perhaps worth it...from a scientific standpoint.)

I may do it anyway...to satisfy my own knowledge. Then I may experiment with the moon. If any of you want in on this, let me know.

TO MY SIX SCIENTISTS:

Tonight...I am utterly disgusted. Disgusted with the American way...with the American government...and with you scientists.

As you perhaps know...I have performed several hundred miracles...documented. The latest miracle...was to control an FAA radar installation, producing 25-50 UFO's on the radar screen...knocking down four planes, setting fire to an aircraft carrier...and so on. And I have the notarized signature of a government radar expert who sat next to me while I did it.

But tonight...I tried for an hour...to telephone Dr. Hynek and Dr. Fogel...to report two new miracles that I was going to perform with UFO help...and lo and behold...Drs. Hynek and Fogel were "not in to me."

There have been half a dozen times...when I had invaluable information to give the U.S. government...and tried to phone the CIA or the Secret Service...and they were "not in to me" either. So the government didn't get the info.

Well...I have only one thing to say. You all are either idiots...or I am an idiot. It is one way or the other. And judging from my successful record...it is not I who is the idiot.

I called Dr. Hynek the night before the Apollo flight...and told him what I would do. And I did it. I told the two government experts what I would do on my recent radar installation experiment...and I did it. If this is the work of a "crackpot" or an idiot, so be it. But facts be facts. I did it.

Tonight...you had two more wonderful miracles which you could have witnessed. But because you were "out to me"...you don't get the miracles.

How damn stupid can the U.S. government, and the scientists, be?

Show me a human, or a human mind, like mine, anywhere in the world. Then explain to me why...you would not have a "hot line" to me, at any time of the day, or the night?

Science? I laugh! What science?

TO MY SIX SCIENTISTS...

I wrote you on November 12, 1971...quite a bit ago...and told you that
"my demonstration will be...in the skies and heavens overlooking our earth...
and even in outer space beyond our earth."

You'd better dig that up, and read it in full. Better yet...I'll xerox
it and enclose a copy for you.

It has taken this long...for my powers to get this done (space-time in
psi-force is different than in our space-time continuum.)

Now I would assume that from here-on...planes might be in danger, and
the water attack that I write of...might be even more dangerous even
than it has been (Hurricane Agnes; Man, West Virginia; floods in South
Dakota, etc.) (Not to mention the worst typhoon in the history of the
Phillipines.)

So here it is. The power I "sent up" in 1971...has just arrived!

Dear Ted:

Since I wrote on July 14th asking you
for rain we have had five helpful rains, enough to
bring crops to maturity.

I'm sure some of these rains were brought by
you and the S.I.S.

I wish to thank you very much for what you
have done. It is much appreciated.

Sincerely yours,

Dear Otto:

Your confirmation arrived...and I thank you deeply, in appreciation.

I had thought, since it wasn't in writing, but verbal over the phone...it had skipped your mind. But I remembered you said that you remembered...so evidently not. At any rate, I really appreciate your statement of fact.

Now, I note on it, that you state it was my suggestion...that I can "control the sun" with my mind. This is absolutely true, although it sounds ridiculous on the face of it. But I base this on fact. Let me show you.

Get out the Apollo file I sent you, the last flight where I called Dr. Hynek the day before the flight...told him I was hitting the flight with "PK". Now, flip through the file to the page where there is a small newsclip at the top dated April 29, 1972. On this page I wrote: "Note the sentence: 'the astronauts were exposed to radiation from the FIRST SOLAR FLARE ever to occur during a manned moon mission.'"

(1) I hit this craft with PK...and it in turn was hit with a "solar flare."

Now, look at the enclosed xerox file...showing the recent attack of SOLAR FLARES upon this earth.

But previous to the attack...I had HIT THIS EARTH (Cleveland, Ohio) with PK.

(2) I hit this earth with PK...and it in turn was hit with "solar flares."

If this isn't just more than simple coincidence, I'll eat my chapeau.

Now...as to my controlling the sun. Assuming my judgement of above facts is correct...i.e., I hit something with PK (a new method, actually...one of my now over 150 methods) and the sun in turn hits my some target with solar flares. Thus, I am controlling it, albeit obliquely. You see? Cause and effect, Otto.

And one of these days am going to utilize the moon's rays (full moon) in a like experiment. Just haven't settled on a target yet.

Best...and thanks once more....

Ted Owens (PK Man)

August 31, 1972

Dear Dr. Hynek:

Re the recent file I sent to you...documented file whereby I actually "controlled" the city of Cleveland, Ohio, with my mind...for a week (just as I had previously "controlled" an FAA radar installation here on this peninsula with my mind, also documented.)

I'd like to point out to you certain facts which would absolutely indicate that what happened to Cleveland, Ohio, could be no accident, nor a coincidence...not even precognition working. It had to be my mental attack.

First...remember, I sent you a specific list WELL BEFORE Cleveland had its week of horror. This list indicated the different and many things I would DO to Cleveland.

Following which, most of the conditions I had set forth...actually happened to Cleveland. Now, the very VARIETY of things I'd listed...would, or should, I think, preclude "coincidence"...i.e., that the blinding heat, lightning attacks, nutty people phoning up City Hall, and so on...might just happen, as sort of a coincidence. One of my set conditions might have happened coincidentally, perhaps...but not all the things that happened!

I said I'd cause terrible heat...so Cleveland had heat so hot the sidewalks buckled and fell apart.
I said I'd cause lightning to attack...so lightning hit and set afire a city bus with a load of people on it, and lightning hit various people also.
I said I'd cause people to do strange things...so you saw the newsclip for yourself stating that many people called the City Hall, talking about hearing "strange voices" and "voices from UFO's" and being secret agents, etc.

I can do no better, ever, to prove my reality as half-Si, than these last two demonstrations, Radar and Cleveland.
I said specifically what I was going to do...in advance...and then did it.
In Radar, I had government experts present, and worked on scientific apparatus.
On Cleveland, you and the other scientists were notified well in advance...what I was going to do...before I did it to Cleveland, and it happened.

Tell me, how much more could you want, in the way of absolute, concrete proof...that I am half-Si...that my mind has been altered to produce effects this world has never seen?

In closing...there is no limit...to what I can produce...with my powers. As easily as I can control a radar installation, I can control Cleveland, a huge city. As easily as I can control Cleveland...I could control a State. As easily as I could control a State, I could control a country...even a group of countries. I realize that sounds like a full-blown paranoid statement...but how many paranoids that you know...can produce actual, documented cause & effect miracles to back up their "delusions of grandeur"?

Sincerely,

Ted Owens (PK Man)

A Plague on You

MIDLAND, Tex. (AP)—City health department crews battled invading grasshoppers Monday that blanketed Midland Sunday night, forcing cancellation of the Amarillo-Texas League baseball game.

"There were millions of them," sportswriter Bob Dillon of the Midland Reporter-Telegram said.

Dillon was in the stadium press box when the grasshoppers, some three inches long, swarmed the playing field and the stands during the first inning of the second game.

Women screamed, players swung their bats and fans clawed at the insects covering the playing field, the stands and the mercury vapor lights.

"I've never seen anything like it," Dillon said. "The umpires finally called the game off. The

lights were turned off and as we walked out of the stadium the ground was just thick with them."

Health Department officials said a cool front that pushed into the area early in the evening might have brought the invasion.

"No one here seems to remember anything like it," a health official said. "The grasshoppers are still over town, and we have crews out there spraying in the downtown section trying to get rid of them."

TO MY SIX SCIENTISTS...

you can add this account to the other freakish rodent and insect infestations I have caused around the world...and called in advance in a previous letter to you.

Interesting here...is that the writer said "A Plague On You."

As you know...I have PK'd Texas and Nevada, which is to say...I've put into action "a plague on Texas and Nevada"...with psi force.

And have just added Ohio, too.

This will not affect the disc-people.

It is being done...as a demonstration, which is necessary at this point in time.

RID MICE OFFER BY MIRACLE MAN

A Virginian (U.S.) "miracle worker" has offered to rid Queensland of its mouse plague in one day.

This is claimed in a letter to the editor of The Chronicle from an Innisfail woman, Mrs. Winifred Mossop.

"I don't want you to toss aside this suggestion as a crackpot, as it's for real," Mrs. Mossop writes. "And since I was once farming in your district and know what crop loss means, I think anything is worth trying once."

Mrs. Mossop said she had spoken to the man, Ted Owens, known as "P.K." or the "flying saucer missionary," by phone at Cape Charles, Virginia. The call, with two extensions, cost her \$17.

"He said that if any farmer in Australia would pay his return fare, he would guarantee to get rid of the mice in a day," Mrs. Mossop says.

Mr. Owens gets his miracle-working power, according to Mrs. Mossop, from Unidentified Flying Objects. He believes U.F.O.s are here to help us, and to stop man from wiping out earth.

Quoting the American Saga magazine as her source of information, Mrs. Mossop says Ted Owen:

• Warned the Weather Bureau that U.F.O.s would work up three hurricanes

simultaneously. Biulah, Chloe and Doris faithfully showed up on the same week-end in June 1967 and smashed their way into Florida.

• Worked up a lightning storm over Philadelphia on a specified night in 1966.

• Predicted the explosion of a French submarine Euridice in the Mediterranean with the loss of 60 lives; and

• Saved a corn crop by sending rain.

Mrs. Mossop lists several other accomplishments of Mr. Owens.

"He said if all the farmers put a little each in towards his fare, he will do them a good deed."

She says Mr. Owens can be contacted by telephoning Cape Charles, Virginia, 3311208, or at his home address P.O. Box 48, Cape Charles.

NO TRACE

BRISBANE. — Detectives yesterday conducted investigations in the city, Clayfield, Amberley and Ipswich in the hunt for missing W.R.A.A.F. policewoman, Gaye Christine Baker.

However, they said the leads had revealed no trace of the 23-year-old woman, who was last seen in the Clayfield area last Sunday.

MIRACLE WORKER WILL 'END PLAGUE OF MICE'

TOOWOOMBA.—A Virginian (US) "miracle Worker" has offered to rid Queensland of its mice plague in one day.

"He said that if any farmer in Australia would pay his return fare he would guarantee to get rid of the mice in one day," Mrs. Mossop says.

Mr. Owens gets his miracle-working power,

according to Mrs. Mossop, from unidentified flying objects.

He believes UFOs are here to help us and stop man from wiping out earth.

4 Rob E. Shore Bank of \$52,000

2 Forced Into Vault By Gunman

KELLER—Four men, one of whom held a pistol, robbed United Virginia Bank-Seaboard National of about \$52,700 here Wednesday, a bank spokesman said.

Cashier George Cavish said the money was taken from a vault into which he and a teller were forced and from drawers in the bank.

He said the pistol-wielding man, who was "very nervous," demanded, "Do as you're told and you won't get hurt."

He said the man's hand was shaking and "he kind of pulled the trigger back" as Cavish and the teller were ordered into the vault.

He said the man, about 5 feet 7 and 160 pounds, appeared to be in his late 30s and was accompanied by two younger men. A fourth man waited in a car outside the bank, witnesses said. All are black.

Cavish and Teller Mrs. Laura Belle Taylor were forced into the vault while the men made their escape. The door was shut on them but did not lock, Cavish said.

Fern Ward, a secretary to an attorney who has an office nearby, said she saw three men carrying three bags leave the bank in a hurry.

Bank officials said a camera inside the bank was activated during the robbery, but FBI agents said not all the men were photographed.

Virginia Police said a car matching the description of the one believed used in the getaway was found in the Bobtown area of Pungoteague, five miles west of here.

Mrs. Ward said the car bore New York license plates.

The car pulled up in front of the bank about 10:30 a.m., Mrs. Ward said, and the three men walked "leisurely into the bank," leaving the fourth behind the wheel.

Mrs. Taylor said she greeted the men when they came in. One pulled a pistol, she said, and told her it was a robbery.

Cavish said he and Mrs. Taylor were the only people in the bank at the time of the robbery and they were forced into the vault.

They waited inside the vault until they believed the robbers had left, he said. Then they summoned help.

Mrs. Ward said the bank alarm, which sounded when the men were inside, had previously malfunctioned, and she started toward the bank to tell employees of the sounding alarm. Her boss stopped her.

"Things lookd suspicious," she said she was told.

Ted Owens, known as "PK Man", who lives here in Cape Charles on the Eastern Shore, stopped by the State Liquor Store in which I work yesterday morning, about 10 a.m. (Wednesday, August 9, 1972)...and informed me that his brain had picked up a plan by bank robbers to rob a bank, or a liquor store, right away...and that we had better be ready for them at our store. Be on the alert. He also told me that the Cape Charles Bank might be in danger of being robbed.

Later in the day, on television and radio...it was announced that bank robbers had indeed robbed a bank at Keller, a small town up the road from here (Cape Charles).

I swear that this is a true and accurate statement to the best of my knowledge.

To The Scientists I Know:

Gentlemen, it is time...time to give you a demonstration...to strike fear into your hearts.

I am not...your ordinary, orthodox human; even "experimenter". And I have waited too long, overlong...for some cooperation, from somebody. I've marked time...toting with pro football teams...waiting for some scientists, somewhere, to make an approach. Now it is too late. Too late.

My demonstration will be...in the skies and heavens overlooking our earth...and even in outer space beyond our earth. This has nothing to do with the Si's work. This will be my own...and by the time you receive this, it will have been put into effect. Sometime, perhaps, I will dismantle the apparatus. Perhaps.

What I am going to do...is thrust tremendous, smashing, destructive thrusts of power...up through the skies over the earth, even unto outer space. No airplane will be safe in the air; no rocket ship will be safe in outer space. Invisible waves of irresistible force...will permeate our skies. Until I call them off, sometime, some day.

My powers...and ability...have been taken too lightly. If not, then I would have been approached and cooperated with, before this time. I can't wait forever; therefore the infinite powers which I possess...must be brought out and thwacked across the heads of stupid humans...to show them that a fact is a fact. Then we will take it from there.

So...right now the waters of the world are turning their intelligence toward the destruction of humans. This was brought about...because my word of warning was not heeded...re further pollution.

Now...the very air of the earth overhead...will be a woman's land...waiting, waiting for humans to get up into it. In xxx planes or whatever.

If you have any human decency...you will issue a general warning to the public not to fly in planes. But...the love of money being what it is...you will not, and hey will.

And airplanes will fall like snow in December. I think this is the Si half of my brain talking...but whatever...it is very real, as borne out by my past demonstrations.

It is incongruous...I stop or divert the flow of giant lava slides, and save villages...yet not a word, not one word...goes out about it. The Si's are not credited; their powers are not pointed out to the public. So...we go from positive to negative powers. Unfortunate. But...there it is.
