PREDICTIONS--RUTH ZIMMERMAN in PREDICTIONS FOR 1974 said, "...a top political leader will undergo amputation of a leg." Perhaps not the top political leader himself, in this case, but the son of Senator Ted Kennedy. This was one of several of Ruth's predictions in the Warren Smith book....GAR OSTEN, Astrologer from Newton, Iowa has sent along a prediction for IN--"Nixon will leave office within the first six months of 1974 and Gerald Ford will become President. Mr. Ford is in some danger of deception or trickery in April-May period - a danger of being used, so to speak, which could cast him in a bad light, or this might simply suggest his assuming office under unusual circumstances." Gar continues by reminding IN of some predictions made last June, but have not come about, yet--"Another scandal in the Nixon Administration and Nixon will have another health problem, possibly a hospitalization (a stroke is likely). The U.S. dollar will be in trouble again in the early months of 1974."

CORRESPONDENCE..Unfortunately, time does not permit answering all letters received here at Other Dimensions. We do try to answer those that we can, but with the heavy writing and travel schedules that Brad and I both have, and the fact that we are a small organization, personal answers are not always possible. If you have a specific question that can be answered briefly, please send a self-addressed envelope with a stamp, and we will do our best to get an answer back to you, as soon as we can. We do like to hear from you, and hope you will understand the physical limitations of this small operation. Thanks, dg

FREDRIC STOESSEL, Box 5012 Woolsey Station, Long Island City, NY 11105 recently commented in his newsletter: "I firmly believe that no church, no religion, no metaphysical teaching nor line of reasoning is valid unless you can apply it to solve the problems you may have of mind, body and pocketbook right now." -- Agreed, Fredric, this has long been the problem of metaphysical as well as main-stream religions; they tell their people what wonderful things can happen, and generally base their time in the distant future, even after physical death, but fail to show them what wonderful things await them right here NOW. Whether we like to admit it or not, we live in the physical world, and must gear our lives to this while striving to work at the Inner Levels as well. Any religious or philosophical teaching that can not supply answers to today's problems is doing only half a job at best, for as Sun Bear would say, we must "walk in balance" and part of that balance is knowing how to meet our everyday worldly problems.

TIME, SPACE AND CIRCUMSTANCE by Roy Eugene Davis is now available in a completely revised and enlarged edition, published by Frederick Fell Publishers, Inc., 386 Park Avenue, South, New York, NY-\$2.95. As you may know, Davis is Director of the Center for Spiritual Awareness, Lakemont, Georgia, and has written innumerable books on metaphysical techniques over the years. TIME, SPACE AND CIRCUMSTANCE is an excellent example of Davis' writing, and a book I am sure you will want in your library.

HOW TO CONTACT SPACE PEOPLE by Ted Owens might give you some interesting insight into the work of this remarkable man, especially now that UFO activity has increased since the October Flap, and people are becoming more aware of the visitors from space or other dimensions of time. The only copy I have is one loaned to me by Ted for research on a book we are doing here at Other Dimensions, and I do not have the price handy, but I am sure \$5.00 would cover it--available from Ted Owens, Box 48, Cape Charles, Virginia 23310.

May 1974 be your best year yet. All of us here at Other Dimensions wish you and yours the Happiest of New Years.

Dear Ted

How are you my friend?
Hope that you and your family had
a wonderful Christmas and New Year.

I guess I told you in the
last letter that I read your prediction
in Jan. Sage. By the way did you
read the story on Kohoutek in Sage?
I found that quite interesting!
What do you think about its affect
on the weather?

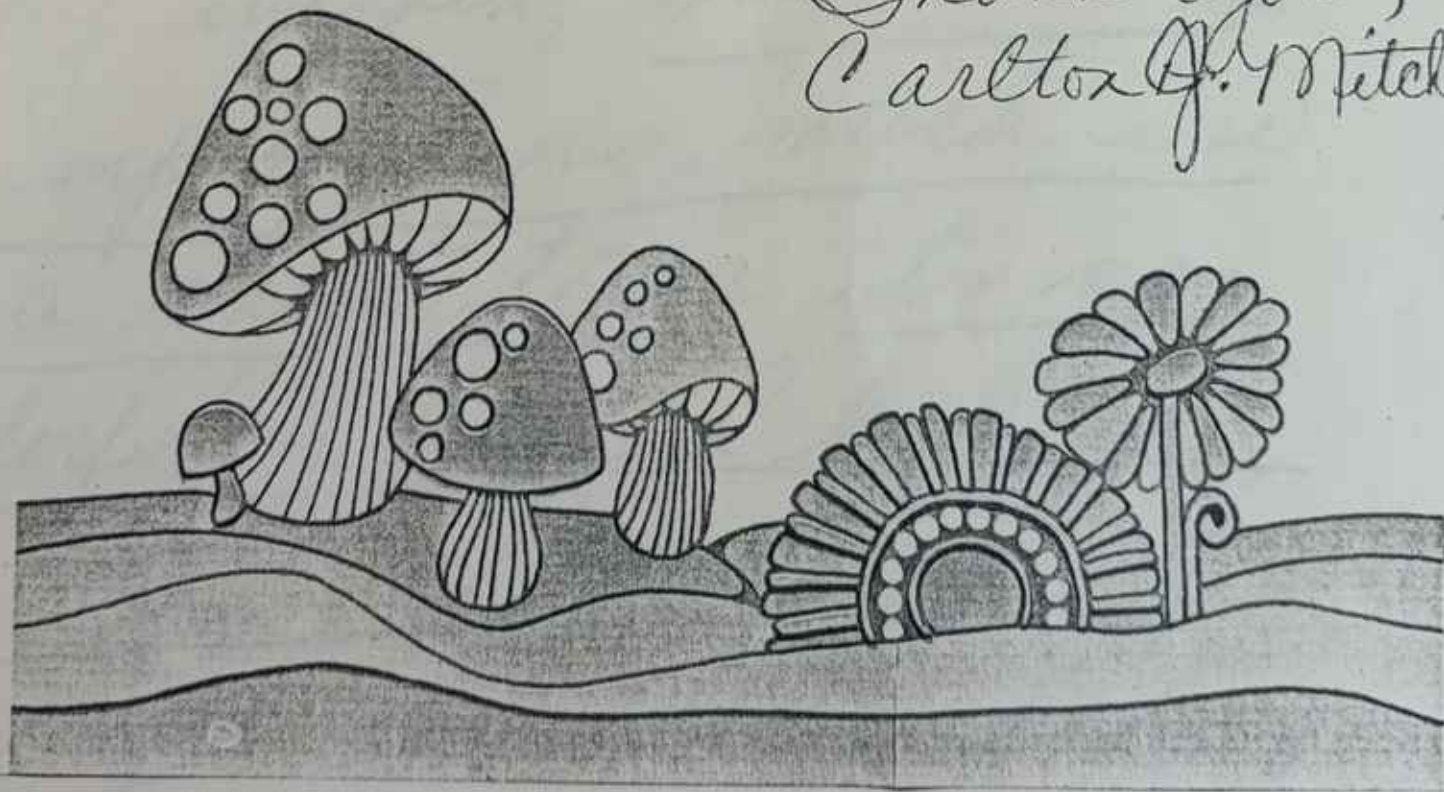

I would like to tell you again
more than ever that both you and the
disk (I never take off of me) have really
saved my eye sight! Dr. Yueng
(very famous Dr.) is still in shock over
this great miracle. He uses my case
in his talks when he travels to Europe!
So long for now. Best Wishes
George Lippin

Dear Ted,

I have read of all your
fascinating exploits and
contributions to mankind
and honestly believe
that you are the out-
standing figure of the
20th Century. I am sure
that this year will
prove you right in
your predictions against
all the disbelievers in

③ works .. if so, may we
have any literature mailed,
if we pay the postage?

In today's world, so
forlorn and desolate, with
- out any natural leaders
or heroes to look up to
and believe in, the name
of Ted Owens should
be on everyone's lips,
perhaps, some day soon,
it will be.

God bless you, sir
in your continued good
efforts.

Sincerely yours,

William F. Webb,
and friend.
